

SMART LIVING

DESIGNER HOOD

One Touch Cleaning

Dismantable Front Ducting Panel For Easy Cleaning

SMART SENSOR

Just WAVE to POWER ON /OFF and changing SPEEDS

The future of kitchen innovation is now here! Morgan's Powerful Revolution Smart Series Hood with GESTURE CONTROL & AUTO HEAT CLEANING redefines the way you cook, and clean-up after cooking. No more oily or wet hands touching function buttons. Just a convenient wave of the hand will do!

Heating Device Heats Up Oil

Oil Softens and is Dissolved

Oil Residues Flow Into Oil Cup

AUTO HEAT CLEANING

Morgan's innovative Auto Heat Cleaning Technology uses centrifugal force to heat up and dissolve oil residues in the air chamber and metal exhaust fan. Your kitchen hood stays clean for optimal performance.

DESIGNER HOOD

Ducted Ventilation

- Extracts odours up to 98%
- Extracts steam
- Requires ducting system

* It is recommended to leave a window ajar when operating the ducting system.

TO DUCT OR RECIRCULATE?

In the kitchen, it is ideal to use a ducted hood that vents outdoors to ensure optimal air extraction. However, this may not always be practical.

In contrast, the majority of Morgan range hoods are equipped with a recirculation made that passes air through a metal filter to remove grease, and then through a carbon returning the purified air to the kitchen.

Recirculated Ventilation

- Clean air filter eliminates cooking odours
- Easy installation – requires no ducting
- Requires separate recirculation kit

BUILT-IN HOB

Blue Concentrated Flame

For maximum heating power and better combustion

Multi-directional Air Supply

For stable, consistent combustion

Extended Ejector Tube

Fully mixes air & gas with strong gas suction

The Morgan OPTIFLEX series ensure powerful, heat-concentrated flames with stable combustion and it elevate your cooking with enhanced flavours and cooking results.

FITS EASILY INTO YOUR EXISTING COOKTOP SPACE

Recommended fitting dimensions (mm):

- MBH-622 OPTIFLEX:
635-735(W) x 350-421(D)
- MBH-SD625 OPTIFLEX:
640-730(W) x 360-410(D)
- MBH-SD636 OPTIFLEX:
635-820(W) x 350-460(D)

you can easily make use of its adaptable cut-out dimension to replace your old burner and experience the differences.
